

AUGER EXTENSIONS 100 MM SQUARE INNER / OUTER EXTENSION

DIGGA
CONSTRUCTION GRADE
MACHINERY ATTACHMENTS

DIGGA MANUFACTURE A HEAVY DUTY RANGE OF AUGER EXTENSIONS ENGINEERED FOR STRENGTH AND DURABILITY

EASY FIT DESIGN

Easy fit design with no adaptors required helping you connect and disconnect your augers faster.

REDUCE EXCESS PLAY

Heavy duty welded hubs and shafts provides extensions with more rigidity and reduce excess play in the connections resulting a straighter hole.

TELESCOPIC INNER EXTENSIONS

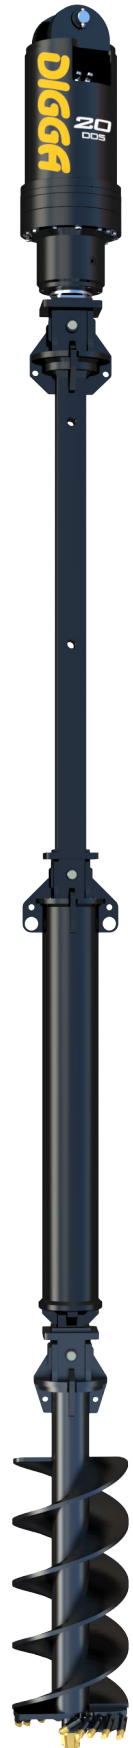

A telescopic design makes it easier to drill deeper as well as easier to transport. Inner extensions can be slid inside outer extensions and augers saving space and reducing loading time.

VARIOUS LENGTHS AVAILABLE

Various length options available for heavy duty auger extensions including 6ft, 8ft, and 10ft for XO40 outer and XT40 telescopic inner extensions.

AMERICAN MADE QUALITY

Our quality products are manufactured in-house by Digga in America. We use only the highest grade materials and strictest quality control.

	OUTER EXTENSION	TELESCOPIC EXTENSION
MODEL	XO40	XT40
Auger Suitability	RC11	RC11
Drive Suitability	20DDS - 30DDS	20DDS - 30DDS
Machine Suitability	up to 30 t	up to 30 t
Maximum Torque	30000 ft lbs	30000 ft lbs
Standard Hub	100 mm square	100 mm square
Body - Diameter X Wall Thickness	8.625 x 0.322 in	100 mm square
Length Options	6 / 8 / 10 ft	6 / 8 / 10 ft
